Bio

I have a degree in architecture and a master's degree in interior design. This education path definitely influenced my taste in photography. I've studied photography in Cagliari, Sardinia Italy, at Michelangelo Sardo Fine Art Studio.

I have loved studying photography since 2013, and like all the best journeys, I think this love will never end. I love photographing people in the studio or in the streets, trying to capture their feelings, but I also love photographing architecture.

I'm 40, I live in Oslo with my family, but I am from Italy.
